The Strategis Group

The Strategis Group is a full service market research and consulting firm recognized as a world leader in the telecommunications industry. The Strategis Group is unsurpassed in providing its clients with an in-depth and global view of the telecommunications industry. It serves a diverse international client base, including service providers, manufacturers, financial institutions, entrepreneurs, governments, and litigants in the telephony, wireless, broadband, cable, satellite, and Internet industries. The Strategis Group is based in Washington, DC, and maintains offices in London, Singapore, and São Paulo.

Areas of Expertise

The Strategis Group provides a full range of consulting services including:

- business and strategic planning
- economic and financial analysis
- demand forecasting and analysis
- competitive and market share analysis
- due diligence and valuations
- partnering and acquisition assistance
- primary market research
- technology assessment

The Strategis Group conducts extensive primary research concerning service providers, manufacturers and end users in order to track the continuous evolution of telecommunications. Our affiliation with industry operators, manufacturers, trade associations, and other industry players allows access to a wide array of resources.

In addition to proprietary consulting services, The Strategis Group publishes an extensive series of industry reports for the telephony, cable, satellite, wireless, broadband, and Internet industries. These publications provide an in-depth expose on market and industry developments and serve the purpose of industry guidebooks to benchmarks and emerging developments.

Background

The Strategis Group is the result of a 1994 merger between Malarkey Taylor Associates (MTA) and Economic and Management Consultants International (EMCI). Since 1966, MTA was recognized as the world's leading cable TV and fiber telephony consulting firm. EMCI, founded in 1987, was widely recognized as one of the premier consulting and market

research firms serving the wireless industry. At The Strategis Group, this combination draws on extensive expertise to address the increasing convergence of cable TV, wireline telephony, and wireless technology.

Strategis Group Return Policy

To return a downloaded publication:

Downloaded reports may be exchanged for a report of equal value or credited towards the purchase of another report. No cash refunds will be granted. Downloaded reports may only be returned for exchange or credit within one (1) working day of purchase. Credit for returned merchandise will be valid for thirty (30) days.

To return a downloaded publication, please send an email to sales@strategisgroup.com within 24 hours of downloading the report. Please include your Order Number and a brief description of the reason for the return in the e-mail. We will contact you to complete the return process.

To return CD-ROM or bound publication:

Unopened CD-ROMs and bound publications may be returned with a valid Return Merchandise Authorization (RMA) for a full refund, less the shipping and handling charges. The RMA must be authorized within five (5) working days after delivery for a full refund. Unopened items will be subject to a 15% return-processing fee if the RMA is authorized after five (5) working days. No returns will be accepted and no refunds will be made if an RMA is not authorized within ten (10) working days after delivery.

Opened CD-ROMs and bound publications may be returned for refund, less the shipping and handling charges, and less a 30% restocking fee, if the RMA is authorized within ten (10) working days of purchase.

We will exchange defective merchandise purchased directly from us for the same item if the RMA is authorized within ten (10) working days of purchase. We will pay the shipping costs for the replacement item.

If this publication was obtained through a reseller, dealer, or distributor, please consult them for their return policy.

Please note:

1. All returned product(s) must be accompanied by a Return Merchandise Authorization (RMA) number. We do not accept returns without an RMA. To obtain an RMA, send an email to sales@strategisgroup.com or call us at 1-202-530-7500.
2. Once you have an RMA, ship the product back to us. You will be responsible for shipment, including the cost. Please use a shipping company that can track packages. We are not responsible for lost or stolen merchandise.
3. Once your return has been received and processed, we will credit your account or ship you a new copy of the publication.

If you have any questions about returning your merchandise, please send an email to sales@strategisgroup.com, or call us at 1-202-530-7500; or toll free (U.S. only) at 1-888-874-8353.

About the Authors

Jamie Moss, *Consultant*

Jamie Moss is a Telecommunications Consultant for the Wireless Division of The Strategis Group Europe. Jamie holds a Bachelors degree in History from the University of East Anglia in the United Kingdom. Graduating in 1998, Jamie joined The Strategis Group in 1999. Jamie researches, and writes industry and market reports for the European wireless sector. Mr Moss has co-authored a number of market studies to date, on such subjects as the European Cellular Marketplace, Wireless Location Services, Wireless Portals, as well as Next-Generation (2.5G and 3G) Infrastructure Markets. Currently, Jamie is focusing on the wireless voice and data, cellular infrastructure, as well as Telematics markets. He is also responsible for the real-time tracking of cellular market indicators and benchmarks.

Karl Emanuelsson, *Consultant*

Karl Emanuelsson, Wireless Telecommunications Consultant with The Strategis Group Europe, holds a BSc in Economics from University College London, UK. Karl focuses on wireless location services, telematics and automatic vehicle location. In addition to writing market reports for the European cellular environment, Karl is also involved in the tracking and analysis of wireless operators and market indicators.

Jake Saunders, *Director*

Jake Saunders, European Director with The Strategis Group Europe, holds an Masters in Technology Management from the University of Manchester, UK. Mr. Saunders is responsible for the management and coordination of projects within the wireless and broadband industries for The Strategis Group's London office. These projects primarily relate to the economic and commercial viability of emergent technologies in mature and emerging markets. On a number of occasions he has been asked to provide analysis, articles and presentations to the financial & trade press, CNN and respected industry forums.
